A

Abnormalities, discordant, in monozygotic twins (Fogel, Nitowsky, and Grunewald), 64

Abnormality, genital, in male and normal genitals in female, familial syndrome of facial and skeletal anomalies associated with (Pinsky and DiGeorge), 1049

Abscess, brain, infection with *Haemophilus aphrophilus* (Blattner) (Comments), 813

Acetazolamide, treatment of hydrocephalus with (Huttenlocher), 1023

Acid excretion, organic, in salicylate intoxication (Schwartz and Landy), 658

Acidosis and alkalosis, acute respiratory, intracellular hydrogen ion concentration changes during (Battaglia et al.), 737

lactic, familial infantile (Erickson), 1004

Acids, plasma free fatty, cholesterol, phospholipids and total lipids in juvenile diabetes, study of blood glucose and ketone bodies and (Davidson and Kaye), 313

ACTH and corticosteroids in management of allergic disorders (Siegel) (Med. prog.), 927

Administration, drug (Shirkey) (Ped. pharmacol.), 909

Adolescents, obese, caloric dependency in, as affected by degree of maturation (Heald and Hunt), 1035

Air, expired, collected from infants and children, gravimetric determination of water content of timed and measured samples of (Bruck and Paa), 365

water in (Bruck and Paa), 365

Alaska, Kotzebue, enteric disease due to enteropathogenic *Escherichia coli* in hospitalized infants in (McAlister, Brody, and Overfield), 343

Alkalosis, acute respiratory, acidosis and, intracellular hydrogen ion concentration changes during (Battaglia et al.), 737

Allergic disorders, ACTH and corticosteroids in management of (Siegel) (Med. prog.), 927

American trypanosomiasis, incidence of serologically diagnosed Chagas' disease among persons bitten by insect vector (Woody, Hernandez, and Suchow) (Trop. ped.), 107

Anemia, sickle cell, patients, response to immunization with Salmonella vaccines (Robbins and Pearson), 877

Announcements, 148, 460, 667, 821, 983, 1109

Anomalies, congenital, chemistry and prevention of (Nishimura) (B. rev.), 146

facial and skeletal, associated with genital abnormality in male and normal genitals in female, familial syndrome of (Pinsky and DiGeorge), 1049

Apnea in supine position as symptom of tumor at base of tongue in small infants (Lewison and Lim) (BCLO), 1092

Arteriovenous fistulas, cerebral, and congenital heart disease (Hernandez, Schwartz, and Goldring), 722

Artificial kidney, miniature disposable (Collins and Esperanca), 103

Asthma, childhood, severe, reversibility of obstructive changes in (Tooley, DeMuth, and Nadel), 517

in infantile eczema, prediction, statistical approach (Conference on infantile eczema), 164

Atherosclerosis and pediatrics (Reisman), 1

"Autoimmune" disease—possible mechanisms (Conference on infantile eczema), 245

Autosensitization in eczema, possible role, as demonstrated by new experimental technique (Conference on infantile eczema), 248

Azathioprine (Imuran), teratogenic effects of (Githens, Rosenkrantz, and Tunnock) (BCLO), 959

B

Bacteremia with exchange transfusions, significance of (Nelson, Richardson, and Shelton), 291

Streptococcus faecalis (CPC), 964

Basophils of blood in eczema, observations on (Conference on infantile eczema), 218

Benzocaine suppository, methemoglobinemia, due to (Hughes) (BCLO), 797

Beta lactoglobulin, ingestion of, malabsorption defect induced by (Davidson et al.), 545

Biochemical data on umbilical vein blood, and neonatal condition (Marx, Smith, and Greene), 989

peculiarities of skin (Conference on infantile eczema), 210

Biology, human (Harrison et al.) (B. rev.), 1106

*January, part 1, pp. 1-152; part 2, pp. 153-274; February, pp. 275-464; March, pp. 465-668; April, pp. 669-828; May, pp. 829-984; June, pp. 985-1132.

Bivalent cations in homozygous thalassemia (Erlandson et al.), 637
Blood, adult and fetal, intracellular and extracellular hydrogen ion concentrations, differences between (Battaglia, Hellegers, and Seeds), 743
basophils of, in eczema, observations on (Conference on infantile eczema), 218
glucose and ketone bodies and plasma free fatty acids, cholesterol, phospholipids and total lipids in juvenile diabetes, study of (Davidson and Kaye), 313
pressure, auscultatory and intra-arterial, comparison in children with special reference to cuff width (Moss and Adams), 1094
umbilical vein, biochemical data and neonatal condition (Marx, Smith, and Greene), 989
and urine chemical values of premature infant, effects of extrauterine maturation on (Smith, Scrivens, and Borden), 997
Bochdalek hernia and malrotation beyond infancy (Singer and Baue) (BCLO), 439
Book reviews, 145, 458, 816, 979, 1105
Books received, 457, 978
Bowel, small, neonatal hyperbilirubinemia associated with high obstruction of (Boggs and Bishop), 349
Brain abscess, infection with *Haemophilus aphrophilus* (Blattner) (Comments), 813
Buccal epithelial smears, staining, as indicator of poor nutritional status due to protein-calorie deficiency (Squires), 891
Burn study, clarification of (Waller and Manheimer) (Letter), 981

C

Cachectic dwarfism resembling Cockayne-Neill type (Spark), 41
Caloric dependency in obese adolescents as affected by degree of maturation (Heald and Hunt), 1035
Calorie intake of children with Down's syndrome (Culley et al.), 772
Candid shots of Dr. L. Emmett Holt, Jr., 470

high output states, precordial murmurs in, differentiation from murmurs of congenital heart disease in infancy (Falcone, Friedman, and Peker), 729
Cardiovascular effects of therapy in congenital hypothyroidism (Lipton et al.), 79
Catheterization, cardiac, ineffectiveness of penicillin prophylaxis in (Kreidberg and Chernoff), 286
Cations, bivalent, in homozygous thalassemia (Erlandson et al.), 637
Celontin (methsuximide) and Dilantin (diphenylhydantoin), cross-sensitivity to (Stein and Pembrook) (BCLO), 799
Centric fragment, persistent, sex chromatin negative individual with chromosomes (XO) plus (Hart et al.) (BLCO), 120
Cerebral arteriovenous fistulas and congenital heart disease (Hernandez, Schwartz, and Goldring), 722
lipids in maple syrup disease (Menkes, Philippart, and Fiol), 584
Cerebrospinal fluid, human, detection of poliovirus type 1 in (Wright and Ward), 489
protein values of premature infants (Bauer, New, and Miller), 1017
Chagas' disease, serologically diagnosed, among persons bitten by insect vector, incidence of (Woody, Hernandez, and Suchow) (Trop. ped.), 107
Chemical values, blood and urine, of premature infant, effects of extrauterine maturation on (Smith, Scrivens, and Borden), 997
Chemistry and prevention of congenital anomalies (Nishimura) (B. rev.), 146
Child who does not talk (Spastics Society Medical Education and Information Unit) (B. rev.), 979
Cholesterol, phospholipids and total lipids in juvenile diabetes, study of blood glucose and ketone bodies and plasma free fatty acids (Davidson and Kaye), 313
Christmas disease, classic hemophilia and, in same male patient: linkage in human inheritance (Blattner) (Comments), 453
Chromosomal and family studies, Down's syndrome at young maternal ages (Day and Wright), 764
Chromosome 18: topologic approach (de Grouchy) (Med. prog.), 414
Chromosomes (XO), sex chromatin negative individual with, plus persistent centric fragment (Hart et al.) (BCLO), 120
Circulatory deficiency, complicating, hemorrhagic disease of newborn, secondary to vitamin K deficiency, and (CPC), 443
Cirrhosis of liver in tyrosinemia (Gentz, Jagenburg, and Zetterström), 670
Closure, spontaneous, of ventricular septal defect following cardiac failure in infancy (Moore, Vlad, and Lambert), 712
Cockayne-Neill type, cachectic dwarfism resembling (Spark), 41
Congenital abnormalities, early diagnosis (Smithells) (B. rev.), 145
anomalies, chemistry and prevention of (Nishimura) (B. rev.), 146

Congenital—Cont'd
heart disease, cerebral arteriovenous fistulas and (Hernandez, Schwartz, and Goldring), 722
in infancy, murmurs in, differentiation from murmurs in high cardiac output states (Falcone, Freidman, and Peker), 729
malabsorption of disaccharides, intestinal glycosidase activities in (Auricchio et al.), 555
pyloric stenosis (Mellin, Santulli, and Altman), 649

Corticosteroids, ACTH and, in management of allergic disorders (Siegel) (Med. prog.), 927
Creativity (Karowe) (Editor's column), 826
Cuff width, auscultatory and intra-arterial pressure, comparison in children with special reference to (Moss and Adams) (BCLO), 1094
Cystic fibrosis, phenylthiocarbamide taste sensitivity in (Manlapas et al.), 8
standard procedure for measuring conductivity of sweat as diagnostic test for (Shwachman et al.) (BCLO), 432
Cytogenetic and clinical study, mongolism in newborns (Hall) (B. rev.), 146
Cytomel, effects on young children with Down's syndrome (Koch, Share, and Graliker), 776

D

Death in infancy, unexpected (CPC), 964
Deficiency disease, trypsinogen (Townes), 275
Dehydrogenase, erythrocyte glucose-6-phosphate, deficiency, simple micromethod for detection of (Oski and Growney), 90
Dermatitis, eczematoid, in histidine deficiency (Conference on infantile eczema), 212
deToni-Debré-Fanconi syndrome, tyrosinemia (Gentz, Jagenburg, and Zetterström), 670
Diabetes in juvenile patients, limitations in use of oral hypoglycemic agents (Kaye and Davidson), 844
study of blood glucose and ketone bodies and plasma free fatty acids, cholesterol, phospholipids and total lipids in (Davidson and Kaye), 313
Diamox (acetazolamide), treatment of hydrocephalus with (Huttenlocher), 1023
Dilantin (diphenylhydantoin) and Celontin (methsuximide), cross-sensitivity to (Stein and Pembrook) (BCLO), 799
Diphenylhydantoin and methsuximide, cross-sensitivity to (Stein and Pembrook) (BCLO), 799
Diphenylhydantoin-induced hypersensitivity reaction (Holland and Mauer), 322
Disaccharide intolerance in malnutrition, acquired (Bowie, Brinkman, and Hansen) (Trop. ped.), 1083
Disaccharides, congenital malabsorption of, intestinal glycosidase activities in (Auricchio et al.), 555
Disease, Chagas', incidence of serologically diagnosed, among persons bitten by insect vector (Woody, Hernandez, and Süchow), 107
maple syrup urine, family screening studies in (Woody and Harris), 1043
Donohue's syndrome (leprechaunism) (Kálló, Lakatos, and Szijártó), 372
Down's syndrome (*See also* mongolism)
calorie intake of children with (Culley et al.), 772
effects of Cytomel on young children with (Koch, Share, and Graliker), 776
terminology of (Rappoport) (Letter), 820
at young maternal ages, chromosomal and family studies (Day and Wright), 764
Drug administration (Shirkey) (Ped. pharmacol.), 909
Drugs, excretion, in milk, review (Knowles) (Ped. pharmacol.), 1068
Dwarfism, cachectic, resembling Cockayne-Neill type (Spark), 41
Dysautonomia, familial, respiratory control in (Filler et al.), 509
Dysostosis, metaphyseal, history of (Rosenbloom and Smith), 857

E

Eaton atypical pneumonia agent, *Mycoplasma pneumoniae,* in respiratory infections (Baernstein et al.), 829
Ectasia, renal tubular, familial polycystic disease of liver with (CPC), 128
Eczema, autosensitization in, possible role, as demonstrated by new experimental technique (Conference on infantile eczema), 248
basophils of blood in (Conference on infantile eczema), 218
genetic aspects of (Conference on infantile eczema), 168
history, definitions, and concepts (Conference on infantile eczema), 154
infantile, conference on (Holt et al.), 153-274
immunologic responses in (Conference on infantile eczema), 224
natural history of: incidence and course (Conference on infantile eczema), 158
role of contactants in (Conference on infantile eczema), 242

Ezcema, infantile—Cont'd
21 year follow-up of (Conference on infantile eczema), 166
and infection (Conference on infantile eczema), 222
minerals in (Conference on infantile eczema), 216
pathologic changes in (Conference on infantile eczema), 178
prevention of (Conference on infantile eczema), 262
secretions of skin in (Conference on infantile eczema), 200
treatment (Conference on infantile eczema), 251
vascular reactions of skin in (Conference on infantile eczema), 203
Eczematoid dermatitis in histidine deficiency (Conference on infantile eczema), 212
Ehlers-Danlos syndrome associated with acquired encephalocele (Dodge and Shillito), 1061
Electroencephalographic, neurological and, correlative studies in infancy (Kellaway and Petersen) (B. rev.), 979
Electromyography in pediatric neuromuscular disorders (Walter and Carson) (Med. prog.), 110
Emphysema, interstitial gastric, in newborn infants due to polyvinyl feeding tube (Sznejder) (BCLO), 126
Encephalocele, Ehlers-Danlos syndrome associated with (Dodge and Shillito), 1061
Encephalopathy, acute lead in young children (Greengard, Adams, and Berman), 707
Endocardial fibroelastosis, clinical, therapeutic, pathological (Wenger) (B. rev.), 816
Enteric disease due to enteropathogenic *Escherichia coli* in hospitalized infants in Kotzebue, Alaska (McAlister, Brody, and Overfield), 343
Enterocolitis, necrotizing, in premature infants (Mizrahi et al.), 697
Enteropathogenic *Escherichia coli,* enteric disease due to, in hospitalized infants in Kotzebue, Alaska (McAlister, Brody, and Overfield), 343
Epithelial smears, buccal, staining as indicator of poor nutritional status due to protein-calorie deficiency (Squires), 891
Erythrocyte glucose-6-phosphate dehydrogenase deficiency, simple micromethod for detection of (Oski and Growney), 90
Escherichia coli, enteropathogenic, enteric disease due to, in hospitalized infants in Kotzebue, Alaska (McAlister, Brody, and Overfield), 343
Estrogenic effects and sex chromatin pattern in exfoliated cells in urine, evaluation (Collett-Solberg and Grumbach), 883
Excretion of drugs in milk, review (Knowles) (Ped. pharmacol.), 1068
Excretion—Cont'd
organic acid, in salicylate intoxication (Schwartz and Landy), 658
Exfoliated cells in urine, estrogenic effects and sex chromatin pattern in, evaluation (Collett-Solberg and Grumbach), 883
Extrauterine maturation, effects on blood and urine chemical values of premature infant (Smith, Scrivens, and Borden), 997

F

Facial and skeletal anomalies associated with genital abnormality in male and normal genitals in female, familial syndrome of (Pinsky and DiGeorge), 1049
Factor XI, plasma thromboplastin in the neonate (Hilgartner and Smith), 747
Familial dysautonomia, respiratory control in (Filler et al.), 509
infantile lactic acidosis (Erickson), 1004
polycystic disease of liver with renal tubular ectasia (CPC), 128
syndrome of facial and skeletal anomalies associated with genital abnormality in male and normal genitals in female (Pinsky and DiGeorge), 1049
Family screening studies in maple syrup urine disease (Woody and Harris), 1042
Fanconi syndrome, acquired, following degraded tetracycline (Cleveland et al.), 333
Fatty acids, free, plasma, cholesterol, phospholipids and total lipids in juvenile diabetes, study of blood glucose and ketone bodies and (Davidson and Kaye), 313
Feeding tube, polyvinyl, interstitial gastric emphysema in newborn infants due to (Sznejder) (BCLO), 126
Fetal blood, intracellular and extracellular hydrogen ion concentrations of, differences between (Battaglia, Hellegers, and Seeds), 743
protection against immunologic rejection, mechanisms of: transplantation immunity in mammalian pregnancy (Lanman), 525
Fever, Thai hemorrhagic, hemostasis in (Weiss and Halstead) (Trop. ped.), 918
Fibroelastosis, endocardial, clinical, therapeutic, pathological (Wenger) (B. rev.), 816
Fibrosis, cystic, phenylthiocarbamide taste sensitivity in (Manlapas et al.), 8
standard procedure for measuring conductivity of sweat as diagnostic test for (Shwachman et al.) (BCLO), 432
Fistulas, cerebral arteriovenous, and congenital heart disease (Hernandez, Schwartz, and Goldring), 722
Foods, some challenge studies with (Conference on infantile eczema), 235

Formiminoglutamic acid excretion, urinary, effect of large intravenous doses of methotrexate on (Acevedo and Mauer), 753

48/XX (trisomy 18 + 21) and 46/XX, case of double autosomal trisomy with mosaicism (Yu-Feng Hsu et al.), 1055

G

Gastric emphysema, interstitial, in newborn infants due to polyvinyl feeding tube (Sznejder) (BCLO), 126

Genetic aspects of eczema (Conference on infantile eczema), 168

Genital abnormality in male and normal genitals in female, familial syndrome of facial and skeletal anomalies associated with (Pinsky and DiGeorge), 1049

Genitals, normal, in female, and genital abnormality in male, familial syndrome of facial and skeletal anomalies associated with (Pinsky and DiGeorge), 1049

Globulin-modified attenuated measles-virus vaccine, oral poliovaccine and, simultaneous administration of (Froeschle and Casey), 1031

Glomerulonephritis, acute, with familial disease of liver and chronic salmonellosis (CPC), 128

Glucose, blood, and ketone bodies and plasma free fatty acids, cholesterol, phospholipids and total lipids in juvenile diabetes, study of (Davidson and Kaye), 313

Glucose-6-phosphate dehydrogenase deficiency, erythrocyte, simple micromethod for detection of (Oski and Growney), 90

Lyon hypothesis in (Tönz) (Letter), 981

Glycosidase activities, intestinal, in congenital malabsorption of disaccharides (Auricchio et al.), 555

Gravimetric determination of water content of timed and measured samples of expired air collected from infants and children (Bruck and Paa), 365

Growth and development of prematurely born infant (Drillien) (B. rev.), 817

disorders in children and adolescents (Kaplan) (B. rev.), 459

Guatemala, rural, measles in (Gordon, Jansen, and Ascoli) (Trop. ped.), 779

Gynecomastia of adolescence and premature thelarche (Collett-Solberg and Grumbach), 883

H

Haemophilus aphrophilus, infection with: brain abscess (Blattner) (Comments), 813

Hartmann, Alexis F., Sr. In memoriam, 143

Health and the school child (Weber, editor) (B. rev.), 818

Sickle cell anemia, cardiovascular findings in children with (Ng et al.) (Abst.), 724

disease, pancarditis, probably rheumatic, in association with (Friedman) (BCLO), 866

Skeletal deformities and blood cell abnormalities, new syndrome associating (Dignan and Mauer) (Abst.), 725

Smallpox, suspected case from Ghana (Kempe) (Letter), 890

vaccination, complications, effects of vaccinia immune globulin therapy (Sussman and Grossman), 1168

concomitant enterovirus infection, and exanthem (Cherry and Jahn) (BCLO), 679

Spastic cerebral palsy, microphthalmos, corneal opacity, mental retardation and; oculocerebral syndrome (Pinsky et al.), 387

Spherocytosis, hereditary, metabolism of erythrocytes sequestered in splenic pulp of patients with (Zipursky, Rowland, and Israels) (Abst.), 721

Spina bifida and total care of spinal myelomeningoceles (Smith) (B. rev.), 696

Spinal fluid, cisternal and lumbar, qualitative changes in, following intravenous injection of glucose in apparently "healthy" children (Williams and Falkner) (BCLO), 1196

myelomeningoceles, total care of, spina bifida and (Smith) (B. rev.), 696

Splenic pulp of patients with hereditary spherocytosis, metabolism of erythrocytes sequestered in (Zipursky, Rowland, and Israels) (Abst.), 721

Staining of teeth, differences among tetracyclines with respect to (Ibsen, Urist, and Sognnaes) (Ped. pharmacol.), 459

Staphylococci, coagulase positive, factors influencing colonization of newborn infants with (Light and Sutherland) (Abst.), 718

Stomatitis, epidemic associated with Coxsackie virus A-16 (Richardson and Leibovitz), 6

Subclavian artery, ligation, effects on bones and soft tissues of arms (Currarino and Engle), 808

Surgical treatment of thyrotoxicosis in children, experience with (Bacon and Lowry), 1

Syndrome, "D", D/D translocation (Erkman, Basrur, and Conen), 270

D_1 trisomy, probable 3/13-15 chromosome translocation with (Atkins and Keenan) (BCLO), 874

radiologic phenotype of abnormalities of ribs and pelvis (Hecht, Loop, and Graham) (BCLO), 870

Down's, familial, with undetected translocation (Day and Miles), 399

parental age in (Sigler et al.), 631

(trisomy 21, mongolism), measurement of normal and reportedly malformed palatal vaults in (Redman et al.), 162

Kleeblattschädel, grotesque form of hydrocephalus (Comings) (BCLO), 126

Klinefelter, in prepubertal boy, XXYY variant of (Townes, Ziegler, and Scheiner), 410

new, aregenerative anemia, malabsorption (celiac), dyschondroplasia, and hyperphosphatemia (Burgert, Dower, and Tauxe) (Abst.), 711

associating skeletal deformities and blood cell abnormalities (Dignan and Mauer) (Abst.), 725

oculocerebral—micropthalmos, corneal opacity, mental retardation, and spastic cerebral palsy (Pinsky et al.), 387

of gingival hyperplasia, hirsutism, and convulsions, Dilantin intoxication without Dilantin (Snyder) (BCLO), 499

multiple developmental defects including polycystic kidneys and intrahepatic biliary dysgenesis in 2 siblings (Smith, Opitz, and Inhorn), 617

rubella, congenital, new clinical aspects with recovery of virus from affected infants (Korones et al.), 166

some recently recognized manifestations (Plotkin et al.), 182

trisomy 17-18, with congenital extrahepatic biliary atresia and congenital amputation of left foot (Weichsel and Luzzatti) (BCLO), 324

Turner, due to presumptive X-isochromosome (Summitt and Dobbins), 76

Waardenburg's, risk of recurrence of congenital deafness in kindred (Robinson, Miller, and Soepardan) (BCLO), 491

T

Tachycardia, paroxysmal ventricular, in childhood (Palaganas, Fay, and Delahaye), 784

Teeth, staining, difference among tetracyclines with respect to (Ibsen, Urist, and (Sognnaes) (Ped. pharmacol.), 459

Teratology: principles and techniques (Wilson and Warkany) (B. rev.), 150

Tetanus neonatorum—clinical manifestations (Athavale and Pai) (Trop. ped.), 649

tetanus immune globulin (human) in prophylaxis against (Shirkey) (Ped. pharmacol.), 643

Tetracycline derivative, tissue distribution and urinary excretion in newborn and older infants (Sereni et al.) (Ped. pharmacol.), 299

Tetracyclines, differences with respect to staining of teeth (Ibsen, Urist, and Sognnaes) (Ped. pharmacol.), 459

Thai hemorrhagic fever (dengue), danger signs in (Nelson and Chulajata) (Trop. ped.), 463

3/13-15 chromosome translocation, probable, with D_1 trisomy syndrome (Atkins and Keenan) (BCLO), 874

Thrombocytopenia, renal vein thrombosis and, in newborn infant (Jones and Reed) (BCLO), 681

Thrombosis in newborn: comparison between infants of diabetic and nondiabetic mothers (Oppenheimer and Esterly), 549

renal vein, and thrombocytopenia in newborn infant (Jones and Reed) (BCLO), 681

Thymectomy, autoimmune hemolytic anemia in infant treated unsuccessfully with (Oski and Abelson), 752

Thyroid function in children and adults, comparison (Croughs, Visser, and Woldring), 343

mongolism (Saxena and Pryles), 363

Thyroidal functional states, different, studies of thyroxin secretion and degradation rate in children with, comparison of thyroid function in children and adults (Croughs, Visser, and Woldring), 343

Thyrotoxicosis in children, surgical treatment, experience with (Bacon and Lowrey), 1

Thyroxin secretion and degradation rate in children with different thyroidal functional states: comparison of thyroid function in children and adults (Croughs, Visser, and Woldring), 343

Tissue distribution and urinary excretion of tetracycline derivative in newborn and older infants (Sereni et al.) (Ped. pharmacol.), 299

Tofranil (imipramine), controlled study of, in treatment of childhood enuresis (Poussaint and Ditman), 283

Traction in newborn, variation in 200 infants (Jabbour and Clark), 1123

Training programs, pediatric, comment (Nelson) (Editor's column), 516

Transfusion of fresh concentrated platelets to children with acute leukemia (Alvarado, Djerassi, and Farber), 13

placental, cardiopulmonary effects (Buckels and Usher), 239

letter (Cassady); reply (Usher), 1220

Translocation, undetected, familial Down's syndrome with (Day and Miles), 399

Transplacental galactose toxicity in rats (Spatz and Segal), 438

Transplacentally acquired erythrodontia (Townes), 600

Triiodothyronine and ACTH, effects on carbohydrate tolerance in dwarfism with hypoglycemia (Green and Steiner) (Abst.), 723

Trisomy 17-18 syndrome with congenital extrahepatic biliary atresia and congenital amputation of left foot (Weichsel and Luzzatti) (BCLO), 324

18 with biliary atresia (Windmiller et al.) (BCLO), 327

21, mongolism, Down's syndrome, measurement of normal and reportedly malformed palatal vaults (Redman et al.), 162

Tryptophan metabolism, nature of disturbance in phenylketonuria (Nadler, Berman, and Hsia) (Abst.), 710

Turner syndrome due to presumptive X-isochromosome (Summitt and Dobbins), 76

Twins, identical, idiopathic anterior hypopituitarism in one (Rosenbloom and Smith), 84

with cachectic dwarfism (McIntyre and Brown) (BCLO), 1204

U

Ulcerative colitis, chronic, in childhood (Davidson, Bloom, and Kugler) (Med. prog.), 471

United States Pharmacopeia (XVII), new, and National Formulary (XII): new and vital changes for children (Shirkey) (Ped. pharmacol.), 833
